## TAKE OFF - GP Cleaning Compound

### PRODUCT DESCRIPTION AND USE:

**Take Off** is a heavy duty alkaline detergent that can be used anywhere in the food industry. Superior hard surface cleaner; eg., plastics, aluminium, stainless steel, etc cleaning just about anything e.g. oil, grease, dirt, dust, light carbon deposits, exhaust stains and more.

Take Off is also excellent as a laundry pre wash stain remover for stains and greasy soils. It may be used as a spray or soak.

### BENEFITS:

- No toxic residue or odour imparted to surfaces cleaned.
- Non Flammable.
- Safe on all hard surfaces.
- Will not harm good paint work.
- Spray and wipe - one action cleaning.
- Economical - Can be diluted to 1:40 with water.
- Excellent on animal fats.

### PRODUCT CHARACTERISTICS:

**Take Off** is a clear blue liquid. It is a soluble alkaline detergent containing active solvent ingredients and foaming additive.

### DIRECTIONS FOR USE:

**General Purpose Cleaning of Food Processing Area:** **Take Off** can be used in either hot or cold water, however hot water will speed up the cleaning process.

A concentration of 1:4 with water is most suitable for cleaning reactive metal surfaces, aluminium, zinc, cadmium, magnesium etc.

Apply by brush, swab or spray, leave for a short time, then rinse off or wipe off with a clean damp cloth.

For heavier soils, use a stronger solution and leave to work for several minutes before rinsing or wiping off.

For use as a foaming CIP cleaner, use at between 1:20 and 1:10. Foam on. Allow a 10 - 20 minute contact time and rinse off completely. Do not allow foam to dry on the surface.

### Laundry use:

**Take Off** is excellent as a de-greaser for heavily soiled articles or as a stain remover.

Pre-spotting: spray directly onto stain. Allow contact time of between 2 and 15 minutes. Do not rinse. Wash as normal.

Pre-soak: prepare a 10% solution of Take Off in hot water. Immerse article and allow to soak between 10 minutes and 1 hour depending on level of soiling. Do not rinse. Wash as normal.

### MATERIALS OF CONSTRUCTION COMPATABILITY:

Safe for use on aluminium at 1:4 or as supplied.

Note: store away from direct sunlight as the food grade dye may fade or turn pink.

Product is still safe for use.

**APPROVALS:**

AQIS - General Cleaner Type A:

General cleaning compound for use in all areas, rinse product contacting surfaces with potable water after use.

If used in accordance with label directions, the compound does not deleteriously affect food or food products.

**HANDLING PRECAUTIONS:**

**NON-HAZARDOUS**

Avoid contact with eyes and skin. Wear safety glasses if splashing is likely to occur. Wear rubber gloves if prolonged skin contact is expected.

Refer to label or MSDS for further safety information.

For further information, please consult the Materials Safety Data Sheet.
