The Applied Group of Companies has Offices in: Australia, New Zealand, Asia & Europe.

APPLIED 8355 DUOSOLVE

PRODUCT DESCRIPTION AND USE:

DUOSOLVE is a scientifically formulated concentrated solvent degreaser for use on the heaviest of greases, oils and grime experienced in the mining industry. A mixture of solvents and surfactants create a highly effective degreasing agent.

DUOSOLVE is specially designed to mix with water to form a degreasing gel as well as being diluted with kerosene to form a thin degreasing liquid.

BENEFITS:

Economic to use:

Due to the highly concentrated nature of **DUOSOLVE** the product is cheaper to use than other solvent based degreasers.

Water emulsifiable:

Due to the occurrence of surfactants within **DUOSOLVE**, it is possible to mix the product with water to form a degreasing gel, which in turn allows the solution to stay on particularly heavy grease for longer periods on vertical surfaces.

PRODUCT CHARACTERISTICS:

Appearance: Clear brown mobile liquid

Odour: Characteristic solvent

S.G.: 0.915

pH (1%): 8.6 +/- 0.5

Flash point : 78°C open cup.

DIRECTIONS FOR USE:

DUOSOLVE can be mixed at a ratio 1 part product with 3 parts water to form a degreasing gel. Spray this degreasing gel on to the surface to be degreased and allow it to remain in contact with the surface for 2 - 5 minutes depending on the degree of soil. Then pressure wash the degreasing gel and soil off with hot or cold water.

DUOSOLVE is mixed with kerosene up to a ratio of 1 part product to 8 parts kerosene. Simply spray the degreasing liquid on to the surface to be cleaned, allow 5 minutes for the product to interact with the surface of the soil.

Pressure wash off with hot or cold water.

Mixed with kerosene **DUOSOLVE** can be used as an immersion degreaser.

Dilutions

With water : 1 part product with 3 parts water

With kerosene : up to 1 part product with 8 parts kerosene

HANDLING PRECAUTIONS:

HAZARDOUS

Contains Hydrocarbon Solvent. Harmful by inhalation, in contact with skin and eyes and if swallowed. Avoid breathing vapours. Use in well ventilated area. Wear safety glasses & suitable gloves when handling. Combustible liquid.

Refer to label or MSDS for further safety information.

For further information, please consult the Materials Safety Data Sheet.
